Individual Graduation PLAN (IGP)

While this IGP is a powerful TOOL for students and parents, this is your student's current proposed PLAN of study for high school and is NOT your students course registration.

Adjustments may be made annually as needed during the advisement process.

- These are the minimum requirements to graduate with a high school diploma. Many colleges and universities may have specific or additional coursework or requirements for entry into their programs.
- Students should research the different application/admission requirements of the post-secondary institutions they are interested in attending upon graduation from high school.

For more information, please visit www.cobbk12.org or see administrative rule IHF-R.

P - Planned Courses are general plans made by your student for future semesters but are **NOT** scheduled.

TS - Tentatively Scheduled Courses are tentatively scheduled for the next semester. These courses are subject to change.

IP - In Progress Courses are in progress for the current semester.

GR - Graded Courses have been completed by your student and count towards earned credits for graduation. (If failed, credit is not earned and the course is in red.)
